

How to take the Covid-19 Test

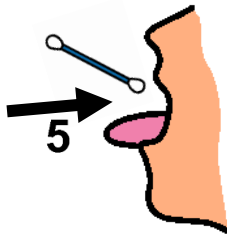

Step 1

Blow your nose with a tissue and give to the adult to dispose off

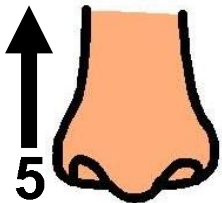

Step 2

Open your mouth wide and stick your tongue out

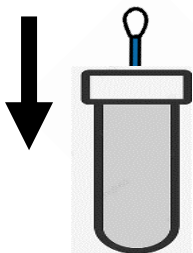

Step 3

The adult will brush the back of your mouth with the swab 5 times

Step 4

The adult will then put the swab up one side of your nose and wiggle it 5 times

Step 5

The adult will then put the swab in the tube

finished
